**Attention O.R. Cysto and
Arthroscopy Nurses...
This pole was built for you !**

Power pole infusion stand is constructed primarily out of steel with powder coat finish. The base has heavy duty casters, was engineered to withstand 40 Lbs of fluid, and tip tested to OSHA standards. There is an internally mounted gas cylinder that is activated by depressing a foot pedal and provides approximately 20 lbs of lift assist. Handles are adjustable to provide optimal ergonomic benefit. The infusion stand is no larger than a conventional pole, elevates 90" and has no electronics, batteries or hydraulics.

Warranty Information:

- One (1) year warranty on all gas springs
- Two (2) years on all other parts
- All other warranties, including implied warranty of merchantability and warranty of fitness for a particular purpose, will be disclaimed
